

„HÖRZU“ issue No. 48:

„Erstaunlicherweise gibt es bei solchen Boxen, die vom Prinzip her für jeden Tag mehrere unterteilte Fächer besitzen, große Qualitätsunterschiede. Von zehn getesteten waren fünf, also die Hälfte, „mangelhaft“: Mal öffneten sich mehrere Fächer gleichzeitig, mal fielen Tabletten zu Boden. Der Testsieger kennt solche Probleme nicht und ist auch für unterwegs gut geeignet.“

HÖRZU Nr. 48 · 23.11.2012

„Berliner Morgenpost“ digital:

[...] Gut jeder Vierte der über 65-Jährigen nimmt laut einer Umfrage des Wissenschaftlichen Instituts der AOK fünf oder mehr ärztlich verordnete Arzneimittel ein. Da den Überblick zu behalten, ist lebensnotwendig. Medikamentendosierer sollen helfen, die Tabletten für den Tag oder für die ganze Woche zu sortieren. [...]

[...] Im Test gut abgeschnitten haben drei Tablettenboxen: Der Medi-7 Medikamentendosierer hat keine scharfen Ecken oder Kanten. [...]

Medi-7 Pill dispenser:

The reliable help for everyone who uses pharmaceuticals multiple times a day.

Medi-7 serves to regulate and control the intake of drugs prescribed by the doctor.

It is easy to use. The big single boxes offer enough space for the intake of multiple medicines.

The single pill boxes can be taken out separately.

Medi-7 is made of high quality ABS-plastics and will last for a very long time.

Established and proved in hospitals and nursing homes for many years.

The single pillboxes has rounded edges.

Medi-7 is available in 3 different colors. The colored edition is useful when you have mostly white pills as well as to differ several users in one household.

Available in every German drugstore.

The pill dispenser:

Medi-7 pill dispenser is available in 3 different colors:

white: PZN* 03812431

turquoise: PZN* 06055404

blue: PZN* 03320159

*PZN-numbers are only valid in Germany

Maintenance:

The Medi-7 Pill dispenser for 7 days is suitable for the dishwasher. Please use programs with max. up to 50° C temperature.

Maintenance without dishwasher:

We suggest to clean the pillboxes in warm water up to 50° C with usual dish liquid.

For cleaning the boxes and lids they can be inserted in a common cleanser (please read the instruction manual carefully).

After an appropriate amount of time (see recommendation of the manufacturer) flush with clear water and dry with a clean towel.
